

Hello, I'm Peter Smith

Address

City, Country

peter.smith@gmail.com

About me

I am a physiotherapist who recently discovered his passion for software development and would like to transition into the field of web development. I am a self taught entry-level front end engineer eager to expand my knowledge and implement what I have learned in a practical and professional environment.

Relevant projects

Released Jan 2021

Wine Shop App

 [LINK TO WEBSITE](#)

Implemented a custom built single page e-commerce application using React.js and FirebaseDB. The application allows the user to view all items in the shop, add and remove them from the cart, and make an order.

Released Nov 2020

To Do App

 [LINK TO WEBSITE](#)

Implemented a simple task list application which allows users to create tasks on their todo list, mark them as complete and delete them. The application is built using React.js and FirebaseDB, and can be used on any screen size due to it's responsive design.

Relevant Skills

- Strong communication skills which I polished working for 4 years in a client-facing position in the healthcare industry
- Ability to manage conflict and deal with demanding individuals which I learned working with ill individuals all of whom were in my care

- Highly ambitious and adaptable - for the past two years I have been working to improve my skills and transition into a new industry
- Team player always ready to help

Work Experience

Jan 2016 - today

Physiotherapist @ Company name, address, city

Worked as a standalone member of the team, responsible for treatment of up to 30 patients with various shoulder injuries.

Jan 2015 - Oct 2019

Volunteer @ Another, address, city

Volunteered at a local animal shelter where I was solely responsible for managing visits from families interested in adopting.

Education

Jan 2020 - Nov 2020

Introduction to firebase - Coursera online course

Jan 2015 - Oct 2019

Faculty of Health Science, City - Bachelor's degree, Physiotherapy
